Disclaimer

The information contained in the Document is for general information purposes only.

The Company assumes no responsibility for errors or omissions in the contents of the Document.

In no event shall the Company be liable for any special, direct, indirect, consequential, or incidental damages or any damages whatsoever, whether in an action of contract, negligence, or other torts, arising out of or in connection with the use of the contents of the Document. The Company reserves the right to make additions, deletions, or modifications to the contents in the Document at any time without prior notice.

Errors and Omissions Disclaimer

The information given by the Document is for general guidance on matters of interest only. Therefore, errors can occur even if the Company takes every precaution to ensure that the Document's content is current and accurate. Plus, given the changing nature of laws, rules, and regulations, there may be delays, omissions, or inaccuracies in the information contained in the Document.

The Company is not responsible for any errors or omissions, or for the results obtained from the use of this information.

Fair Use Disclaimer

The Company may use copyrighted material that the copyright owner has not explicitly authorized. The Company is making such material available for criticism, comment, news reporting, teaching, scholarship, or research.

The Company believes this constitutes a "fair use" of any such copyrighted material as provided for in section 107 of the United States Copyright law.

If You wish to use copyrighted material from the Document for your own purposes that go beyond fair use, You must obtain permission from the copyright owner.

"Use at Your Own Risk" Disclaimer

All information in the Document is provided "as is", with no guarantee of completeness, accuracy, timeliness or of the results obtained from the use of this information, and without warranty of any kind, express or implied, including, but not limited to warranties of performance, merchantability and fitness for a particular purpose.

The Company will not be liable to You or anyone else for any decision made or action taken in reliance on the information given by the Service or for any consequential, special or similar damages, even if advised of the possibility of such damages.

API Access	9

This article describes how to install a Vitextra product to SharePoint Online environment.

Preconditions

Environment

Vitextra SPFx-based products may be installed only on Office 365 (SharePoint Online, Microsoft Teams).

Warning

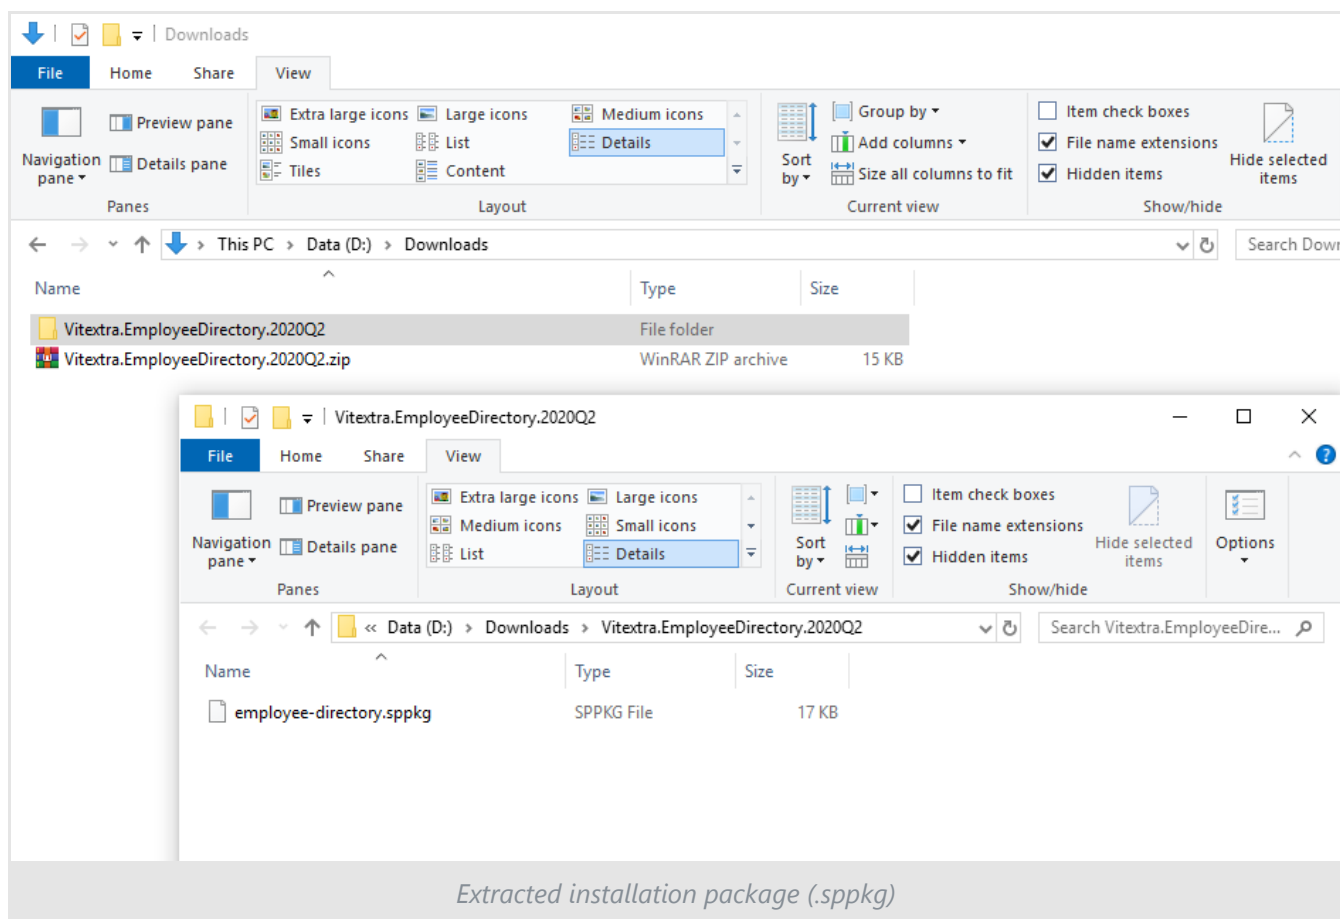

Vitextra SPFx products can not be installed on SharePoint on-premise 2016/2019.

Required Permissions

To perform the installation procedure, you must have the Tenant Admin role assigned to you.

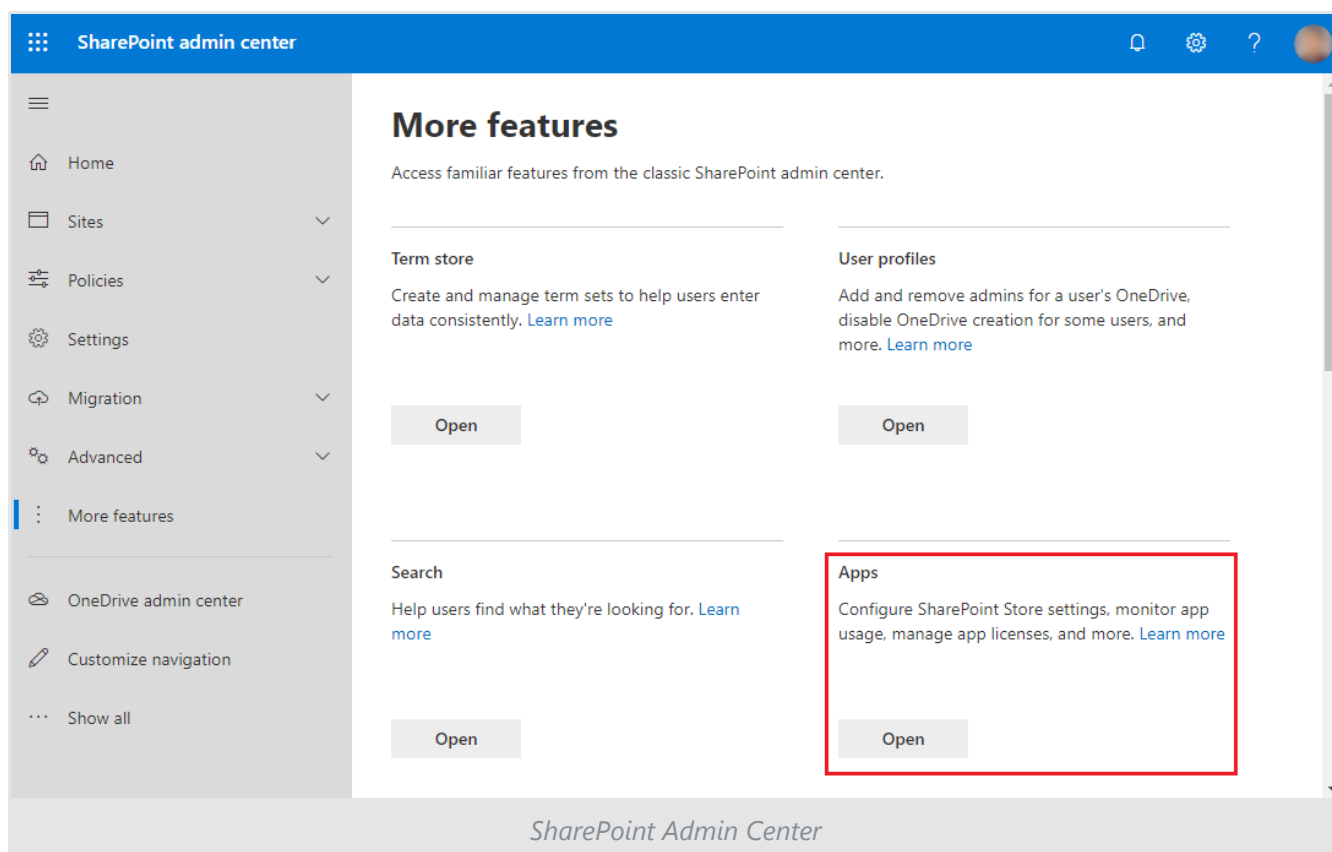

Installation package

Download the zip file (*.zip) of the product from the [downloads page](#) and unpack it to somewhere on your computer.

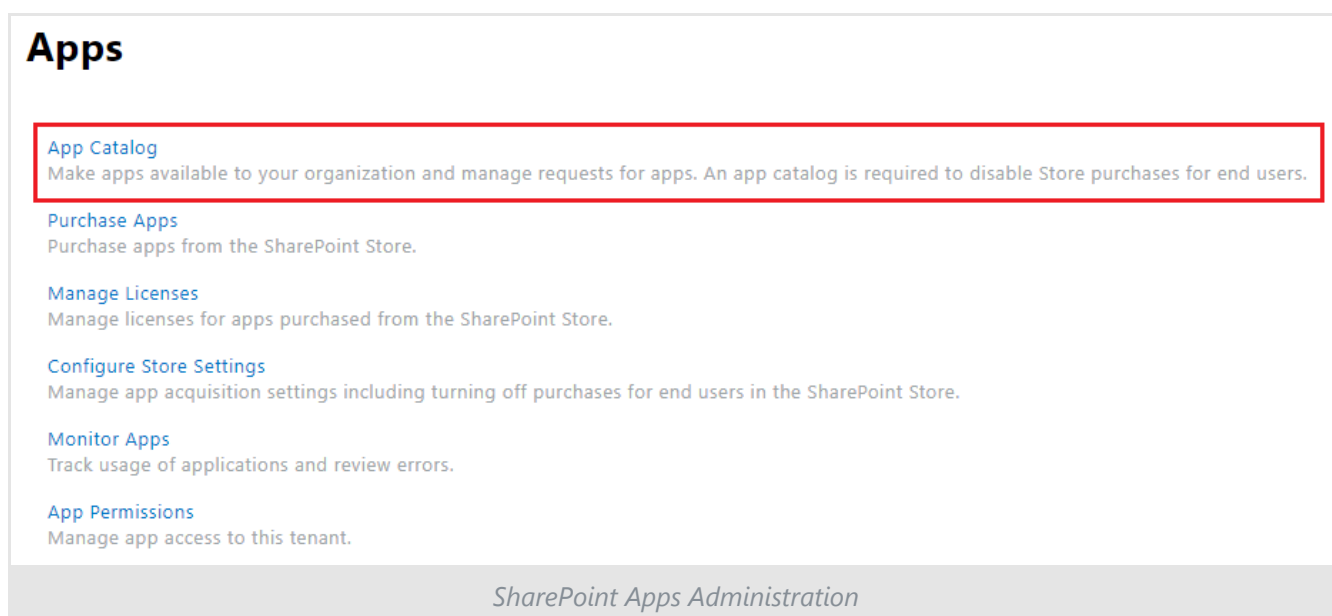

Installation

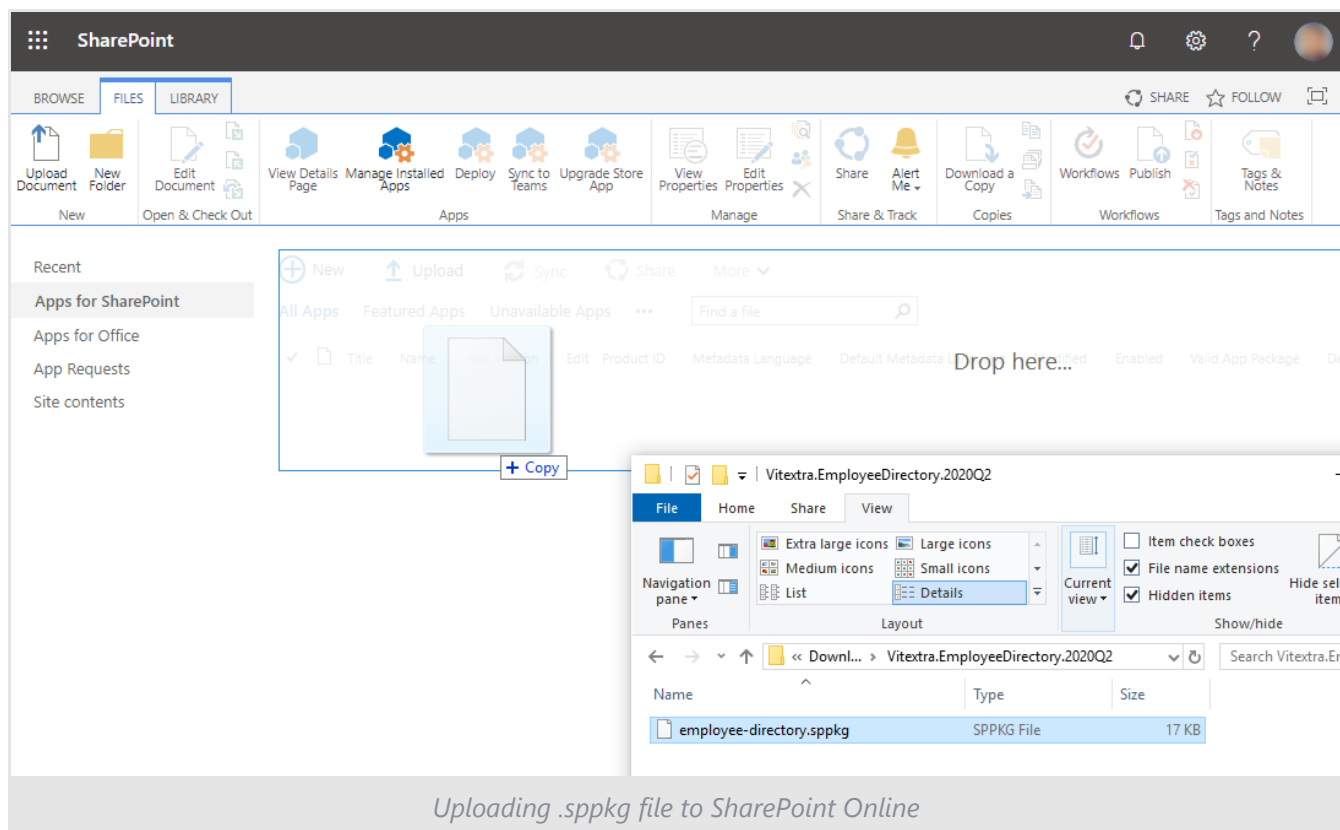

From [Microsoft 365 admin center](#) go to SharePoint Admin Center. Go to **More Features** and click **Open** button under **Apps** heading:

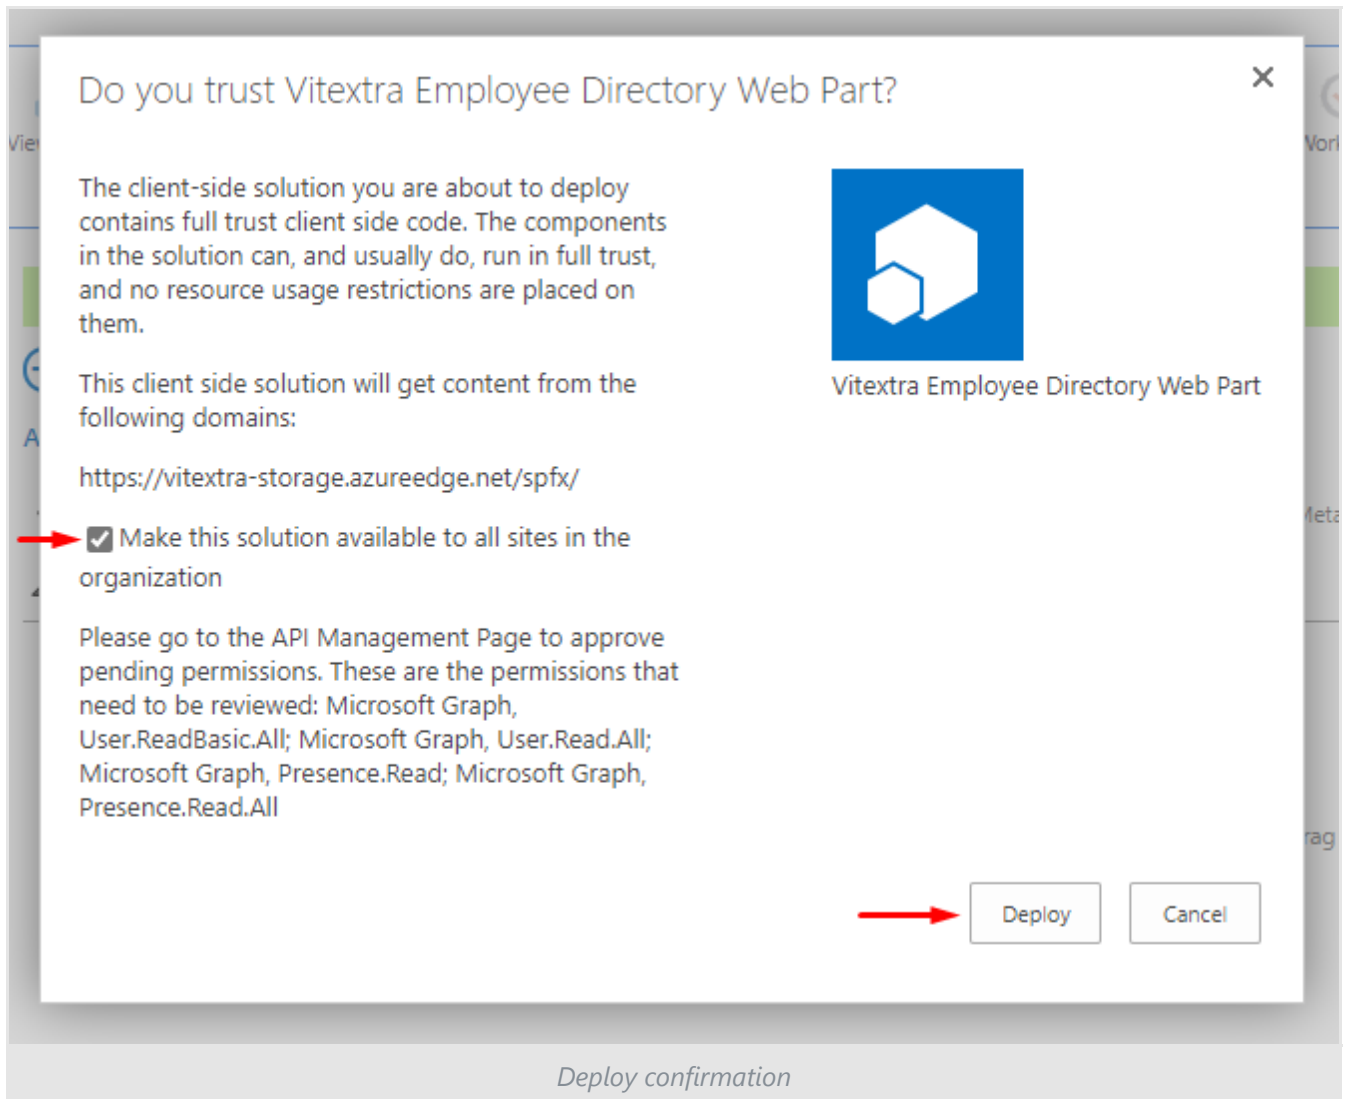

Go to **App Catalog**

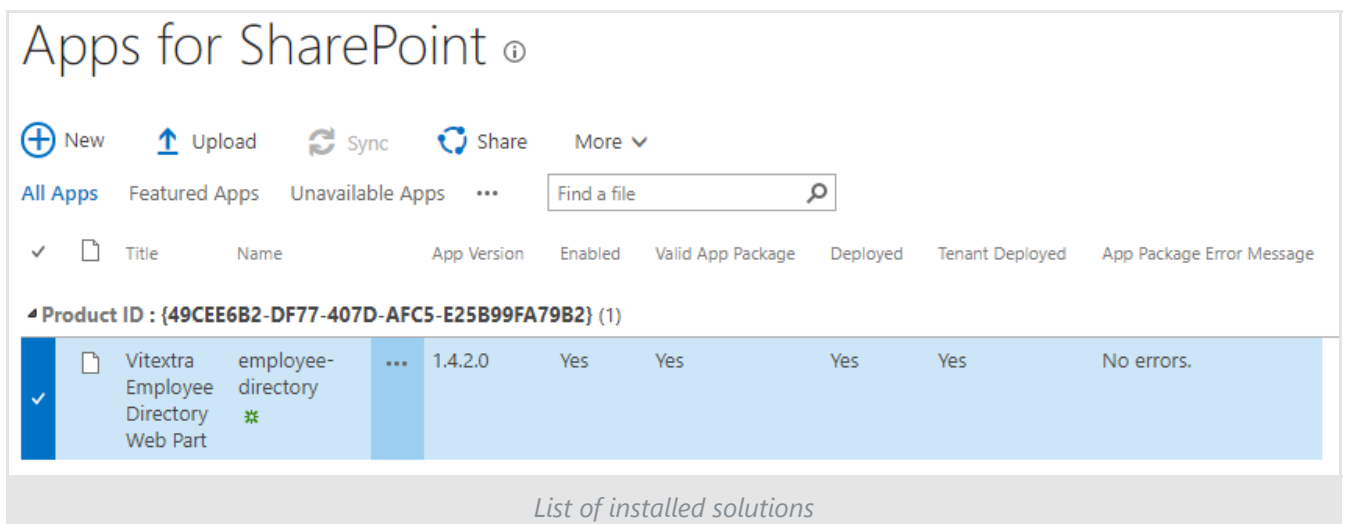

Open **Apps for SharePoint** and upload the extracted .sppkg file.

After uploading the package, SharePoint Online will show you the dialog and ask you to trust the solution.

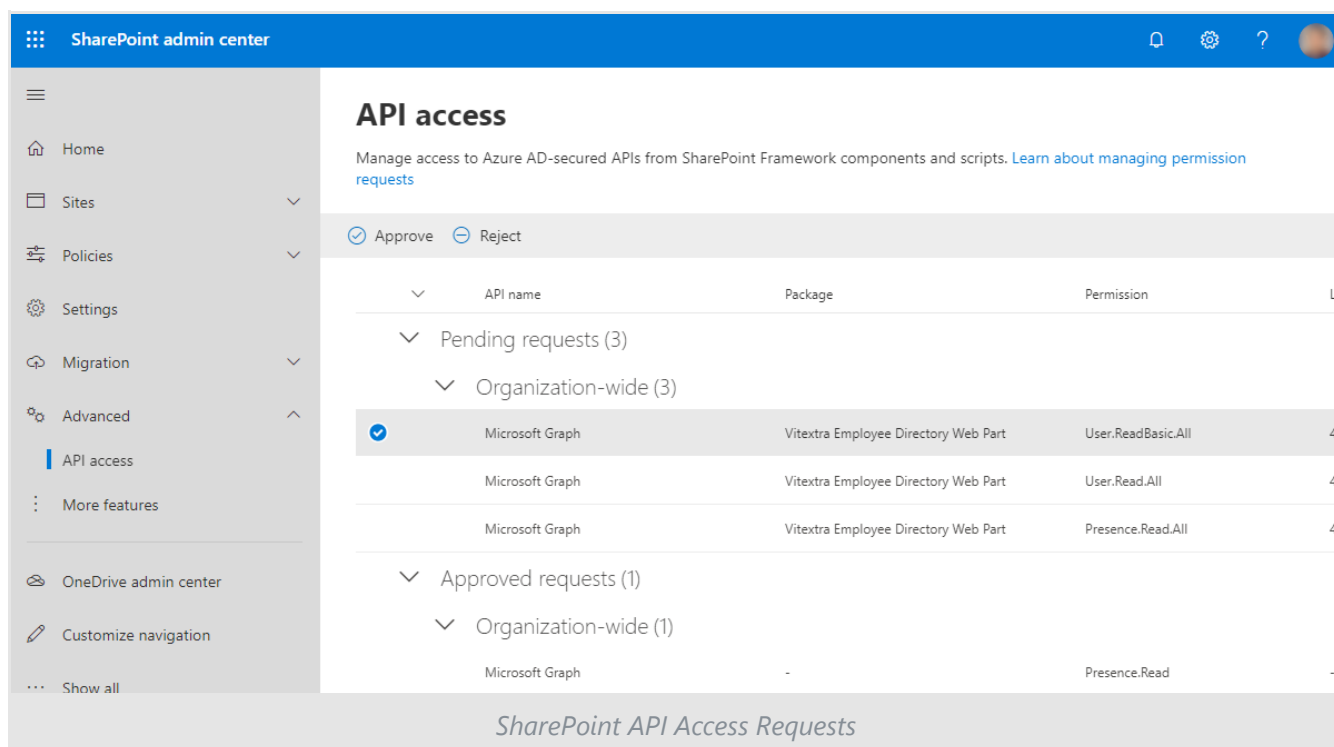

Once the package is deployed you'll see it in the list of installed client-side packages.

API Access

Go to **API Access** section in SharePoint Admin Center to make sure the installed application has the necessary permission to the API. Expand **Pending Request** heading and approve API access requests.

The screenshot shows the SharePoint Admin Center interface. The left sidebar contains navigation links: Home, Sites, Policies, Settings, Migration, Advanced, API access (selected), More features, OneDrive admin center, and Customize navigation. The main content area is titled "API access" and includes a description: "Manage access to Azure AD-secured APIs from SharePoint Framework components and scripts. [Learn about managing permission requests](#)". Below this, there are "Approve" and "Reject" buttons. A table displays the API access requests, categorized into "Pending requests (3)" and "Approved requests (1)". The pending requests are all for "Microsoft Graph" under the "Vitextra Employee Directory Web Part" package, with permissions "User.ReadBasic.All", "User.Read.All", and "Presence.Read.All". The approved request is for "Microsoft Graph" with the "Presence.Read" permission.

API name	Package	Permission	La
Pending requests (3)			
Organization-wide (3)			
Microsoft Graph	Vitextra Employee Directory Web Part	User.ReadBasic.All	4/
Microsoft Graph	Vitextra Employee Directory Web Part	User.Read.All	4/
Microsoft Graph	Vitextra Employee Directory Web Part	Presence.Read.All	4/
Approved requests (1)			
Organization-wide (1)			
Microsoft Graph	-	Presence.Read	-
